WE ARE TRANSMITTING 2 PAGE(S) INCLUDING THIS COVER SHEET

REF: 320 (SL Mercedes Benz)

MESSAGE: The 2001-2002 SL Mercedes requires the warning system to be activated for the audible signal to be present. This activation is done during the dash reprogramming when the US software is added. Several systems are activated at this time, including anti-theft and seatbelt warning audible alerts. (This is true for Porsche, Ferrari, Mercedes and BMW after 1999 depending on the model)

Jonathan Weisheit, Project Engineering
